

ioanna Zarkadoula

PRODUCT DESIGNER | FINTECH | PAYMENTS | DESIGN SYSTEMS

Product Designer specializing in fintech and payment products with 3+ years of experience designing web and mobile applications for leading financial institutions. Experienced in owning end-to-end product design, from discovery and research to production-ready interfaces and developer handoff. Experienced collaborating with engineers and project managers to simplify complex financial workflows through accessible, scalable, and user-centered design. Currently pursuing a BSc in Computer Science to deepen my technical understanding of software development.

CORE EXPERTISE

Product Design

Product Discovery · UX Strategy · User Research · Information Architecture · User Flows · Interaction Design · Wireframing · High-Fidelity Prototyping · Design Systems · Accessibility (WCAG)

Fintech

Payment Products · Merchant Experience · Payment Flows · Onboarding · PSD2 · KYC / AML · 3DS · Open Banking

Collaboration

Product Thinking · Cross-functional Collaboration · Developer Handoff · Agile (Scrum) · Design Reviews

Technical

Figma · HTML · CSS · Java · GitHub

EXPERIENCE

CO.DE Agency

Product Designer

2023 – Present

- Owned end-to-end product design for fintech applications across web and mobile, partnering with Project Managers and Engineers from discovery through delivery.
- Acted as the primary Product Designer across multiple fintech initiatives on assigned products, owning UX/UI decisions while balancing customer needs, accessibility, business priorities, and technical feasibility.
- Designed payment experiences, merchant tools, onboarding flows, dashboards, and developer-facing platforms for organizations including Worldline, Euronet, Cardlink, Nexi, EDPS, and NBG Payments.
- Developed scalable design systems and reusable component libraries in Figma to improve consistency across products and streamline collaboration with engineering teams.
- Applied fintech regulations including PSD2, KYC, 3DS, and accessibility standards (WCAG 2.1) to simplify complex financial workflows.
- Delivered production-ready prototypes and detailed developer specifications, ensuring seamless design-to-development handoff within fast-paced product cycles.

SELECTED PRODUCT DESIGN CASE STUDIES

- Green Helios — End-to-end product design, prototyping, and implementation
- Merchant Payments — UX audit, accessibility improvements, and product redesign
- Developer Portal — Design system, DevEx, and information architecture (Confidential)

EDUCATION

Mediterranean College (University of Derby)

BSc (Hons) Computer Science

2024 – Present (Expected 2027)

IEK Delta

Diploma in Graphic Design

2021 – 2023
